RE: CMP 16-575 Clean Marina

Dear Mr. Russian:

The Department of Environmental Protection and the Clean Boating Partnership would like to congratulate you on becoming a Clean Marina with the Florida Clean Marina Program. We would like to also thank you and your team for all the hard work and effort that was involved in becoming a clean facility by implementing and following the Best Management Practices (BMPs) of the marine industry.

This commitment to making a difference in Florida's conservation efforts displays exemplary environmental stewardship. In addition, program participation earns your facility the recognition as an environmentally-responsible business. Following the outlined BMPs and being prepared for emergencies, such as spills or hurricanes, will further prevent negative environmental impacts caused by pollutants. Additional Clean Marina resources can be found on our website at <http://www.dep.state.fl.us/osi/clean-marina>.

Again, we congratulate you on becoming a Clean Marina and look forward to working with you in coming years to protect Florida's waters.

If you have any questions please feel free to contact Pamela Grainger at 850-245-2846 or email her at Pamela.Grainger@dep.state.fl.us or Clean.Marina.Program@dep.state.fl.us

Sincerely,

A handwritten signature in blue ink that reads "Brenda Leonard".

Brenda Leonard
Clean Marina Program Administrator
